1. NH Family Planning Medical Assistance Program Overview

New Hampshire's Family Planning Medical Assistance Program is a limited set of family planning benefits available to a new Medicaid eligibility group through the enactment of the Affordable Care Act. States now have the option to offer, under State Plan authority, eligibility for family planning coverage for individuals who were previously ineligible for Medicaid. Individuals eligible under the new family planning group are individuals; men, and women who are not pregnant; whose income does not exceed 185% FPL.

This Family Planning Medical Assistance provider billing manual is meant to be used as a guide to identify which services and supplies are covered and non-covered, as well as how to accurately bill for those services and supplies. Presently, this is a manual process and only paper claims will be processed and paid.

Intended Audience

This billing manual is intended for only Family Planning Service Providers that are participating in the Family Planning Medical Assistance program. This billing manual is not designed for use by recipients of the Medicaid Family Planning Medical Assistance Program.

Provider Accountability

Providers should maintain this billing manual, make it available to their staff and authorized billing agents, and be aware of all related policies and procedures, as well as, any changes that relate directly or indirectly to the provision of services and the billing of services for members.

2. Provider Participation & Ongoing Responsibilities

All Family Planning Service Providers participating in the Family Planning Medical Assistance program shall:

1. Be an enrolled provider with the NH Medicaid fiscal agent (Xerox);
2. Have a limited retail drug distribution license and be a Public Health Clinic able to dispense contraceptives and/or other prescribed drugs or the ability to dispense drugs for immediate use;

3. Submit request for payment for services and supplies manually on a paper claim form;
4. Submit a completed and signed Sterilization Consent Form to the Office of Medicaid Business and Policy if a sterilization procedure is scheduled. This must be done before payment is authorized;
5. Family Planning providers that refer clients to specialists must:
 - Ensure that the specialist is NH Medicaid enrolled with fiscal agent;
 - Communicate with and train the specialist billing agent in the Department's manual paper claims process;

3. Family Planning Medical Assistance Covered Services

The Family Planning services and supplies covered by this program are limited to those for which the **primary purpose is to receive family planning**. This program does not cover other services including Emergency Department visits and other primary care services.

Family Planning related services and supplies are services and supplies provided as part of or as follow-up to a family planning visit. Such services and supplies are provided because a family planning-related medical issue was identified and/or diagnosed during a routine or periodic family planning visit.

Covered Family Planning Services and Supplies include:

- Physician services, certified midwife services, and advanced registered nurse practitioner services provided for family planning purposes;
- Contraceptive devices or drugs, both prescription and non-prescription;
- Pregnancy tests and screening for a sexually transmitted disease (STD) only when performed routinely as part of an initial, regular, or follow-up family planning visit;
- Sterilization in accordance with 42 CFR 441.253 and 42 CFR 441.245. Recipient must be at least 21 at the time consent is obtained, not mentally incompetent, not institutionalized, and shall voluntarily give informed consent. At least 30 days, but not more than 180 days, shall have passed between the date of informed consent and the date of sterilization, with the exception of cases of premature delivery or emergency abdominal surgery which requires a 72 hour time period. A consent form is required and must be completed in accordance with the time frames noted on the form (Attachment 1).

Family Planning Related Services and Supplies include:

- Treatment of adverse reactions to, or medical complication of, family planning procedures, services, treatments, or therapies, including but not limited to:
 - Treatment of perforated uterus due to an intrauterine device insertion; and
 - Treatment of severe menstrual bleeding caused by Depo-Provera injections

- Drugs for treatment of STDs, except for HIV/AIDS and hepatitis, when the STD is identified or diagnosed during a routine or periodic family planning visit;
- A follow-up visit after prescribing drugs for treatment of an STD, including a rescreen for the STD;
- Vaccinations to prevent cervical cancer that are routinely provided pursuant to a family planning service during a family planning visit.

4. Family Planning Medical Assistance Non-Covered Services

The following services are not covered as family planning related services:

- Hysterectomies
- Abortions
- Any treatment for the purpose of enhancing, promoting or restoring fertility
- Certain diagnostic procedures such as colposcopy and cryotherapy
- Any medical service, procedure, or pharmaceutical supply or device provided to a recipient who is known to be pregnant.

5. Documentation

Family Planning Service Providers that are participating in this program shall maintain complete and timely records for each member receiving services and for which a claim has been submitted to NH Medicaid for reimbursement.

Providers must maintain clinical records to support claims submitted for reimbursement for a period of at least six years from the date of service or until resolution of any legal action(s) commenced in the six year period, whichever is longer.

6. Surveillance and Utilization Review (SURS) – Program Integrity

The purpose of a Medicaid Surveillance and Utilization Review (SURS) program which, in NH, is administered by the Department's Program Integrity Unit is to perform utilization review activities to identify, prevent, detect, and correct potential occurrences of fraud, waste and abuse. Utilization review activities are required and carried out in accordance with Federal regulations at 42 CFR 455 and 42 CFR 456, and are done to ensure that accurate and proper reimbursement has been made for care, services and/or supplies that have been provided to a member, and for which a provider has received payment.

Utilization review activities may be conducted prior to payment, following payment, or both. These activities include, but are not limited to, conducting provider reviews. These reviews may

be selected at random, generated from member complaints, other providers, anonymous calls, or from the SURS reporting system.

There are various outcomes that may result from Program Integrity review activities. They include, but are not limited to:

- Recovery of erroneous and improper provider payments;
- Provider education regarding appropriate documentation to support the submission and payment of claims,
- Ensuring that the provider has developed a corrective action plan based on the findings of the review. This includes conducting follow-up reviews to verify that the provider is complying with the corrective action plan, and continues to provide and bill for services provided to members, in accordance with the rules and regulations governing the NH Medicaid Program;
- Potential referral to appropriate legal authorities – including the NH Medicaid Fraud Control Unit (MFCU) and the Federal Office of Inspector General (OIG);
- Potential termination from the NH Medicaid Program; and
- Other administrative actions

If a provider is found to have abused the NH Medicaid Program requirements, the provider may be restricted, through suspension or otherwise, from participating in the NH Medicaid Program for a reasonable period of time. In addition, the provider may also have their claims placed on a prepayment plan or hold status for additional review by the Program Integrity Unit.

7. Third Party Coverage

Under federal law, the Medicaid Program is the *payer of last resort*. All third party obligations must be exhausted before claims can be submitted to Office of Medicaid Business and Policy in accordance with 42 CFR 433.139, except for Good Cause exemptions.

Receipt of Family Planning medical assistance is an automatic assignment to DHHS of the applicant's rights to all third party insurance or medical payments without the individual having to sign any other form, per RSA 167:14-a. Because all available parties must be billed and all resulting payments must be applied to the cost of medical care before DHHS will pay. DFA Form 800FP asks for other medical insurance information, however, 42 CFR 433.147 mandates that states must waive these requirements if it is determined that the individual has good cause for refusing to cooperate in providing the third-party information. If cooperation is against the best interests of the applicant for Family Planning medical assistance because it is anticipated that cooperation will result in reprisal against, and cause physical or emotional harm to, the individual, the Family Planning applicant is considered to have "good cause" for failing to meet the third-party liability requirements. New DFA Form 808FP includes a request for a waiver of cooperating with the third-party liability requirement. If the applicant:

- checks the box on DFA Form 808FP requesting the waiver, and signs the form, do not pursue third-party liability; the applicant has good cause for not complying with this requirement.

- does not check the box on DFA Form 808FP requesting the waiver, pursue third-party liability per current Medicaid policy.

8. Payment Policies

Reimbursement Policies

Reimbursement for Family Planning Service Providers for eligible services and supplies shall be based on the type and location of service delivered.

To receive reimbursement for Family Planning Services, the provider shall verify that the member is eligible on the date the service is provided and submit claims for payment to the Department of Health and Human Services, Office of Medicaid Business and Policy-Family Planning, 129 Pleasant Street, Concord, NH 03301 (or Fax to (603) 271-8431). (**Do not** submit claims to the fiscal agent, Xerox).

Federally Qualified Health Centers and Rural Health Centers are reimbursed an encounter rate per visit, one visit per day, at a rate set by the Department. Medications and supplies are not included in this rate and may be billed separately.

All other Family Planning Service Providers will be reimbursed at the Medicaid Fee-for-Service rate.

Reimbursement during a Presumptive Eligibility Time Period

Authorized qualified entities (community outreach providers who have attended DHHS training on presumptive eligibility policy) may make presumptive eligibility (PE) decisions for Family Planning medical assistance. Presumptive eligibility is a process by which a qualified entity (QE) acts on behalf of DHHS and makes an eligibility determination for Family Planning medical assistance using verifications collected from the applicant. This means that PE is determined by the QE worker following an interview with the applicant and based upon documentation collected by the QE from the applicant. In exchange for the QE acting on behalf of DHHS and making a decision that the applicant is eligible for Family Planning medical assistance based on an interview with the client and collected verifications, the QE is guaranteed payment for covered services during the PE period. This period is from the day the client is determined eligible for PE until the end of the next month or until the clients continued eligibility is either approved or denied.

Sterilizations

Sterilizations are only reimbursed if the Family Planning Provider completes a sterilization consent form (Attachment 1) properly and in accordance with the timing requirements of 42 CFR 441, Subpart F, and submits such form to the department. The Department cannot make payment for a sterilization claim until this form is received.

9. Claims

Family Planning Providers participating in the NH Family Planning Medical Assistance Program are responsible for timely and accurate billing. If NH Medicaid does not pay, due to the billing practices of the provider which result in non-payment, the provider cannot bill the member

This Family Planning Medical Assistance program is a manual process and all CMS 1500 claims should be either faxed or mailed on paper claim forms to the Department of Health and Human Services, Office of Medicaid Business and Policy- Family Planning, 129 Pleasant Street, Concord, NH 03302 (or FAX to (603) 271-8431). DO NOT send claims to the Department's fiscal agent, Xerox. Information submitted on the claim by the provider represents a legal document. State staff cannot alter any data on a submitted claim.

Paid claims cannot be resubmitted; resubmission of a paid claim will result in a denial as a duplicate. Paid claim corrections must be made through the adjustment process. If a paid claim has a line item denial, the individual line charge can be resubmitted.

Corrected claims and denied line items can be resubmitted only if the denial was due to erroneous, updated or missing information which is now corrected. Providers should never resubmit claims that are currently in process (suspended).

Any claim denied for failure to be submitted or resubmitted in accordance with timely filing standards will not be paid. Denied claims that have been corrected must be resubmitted as a new claims transaction on a paper claim.

Timely Filing

In accordance with federal and state requirements, all providers must submit all initial claims within one year following the earliest date of service on the claim.

Except as noted below, NH Medicaid will **not** pay claims that are **not** submitted within the one-year time frame.

Claims that are beyond the one-year filing limit, that have previously been submitted and denied, must be resubmitted on paper, along with Form 957x, "Override Request" located on the NH MMIS Health Enterprise Portal web site at www.nhmmis.nh.gov. This resubmission **must** be received **within 15 months** of the date of service. If this time frame is not met, the claim will be denied. PLEASE DO NOT SUBMIT THE FORM 957X TO THE ADDRESS ON THE FORM. THIS FORM MUST BE SUBMITTED TO: Department of Health and Human Services, Office of Medicaid Business and Policy- Family Planning, 129 Pleasant Street, Concord, NH 03302 (or FAX to 603) 271-8431.

The only other circumstance eligible for consideration under the one-year override process is for claims for NH Family Planning Medical Assistance program covered services for members whose NH Medicaid's Family Planning expanded eligibility determination was delayed. The claim should be submitted as detailed above.

Diagnosis & Procedure Codes

NH Family Planning Medical Assistance program requires the use of Health Care Financing Administration Common Procedure Coding System (HCPCS) codes, and CPT (Current Procedural Terminology) codes. ICD-10-CM diagnosis codes are also required for all services billed on medical forms (CMS-1500). Claims without the required diagnosis or procedure codes will be denied. Family Planning services must be billed using the appropriate industry-standard diagnosis.

Claims must be coded accurately to represent the primary purpose of the service and/or supply is family planning. In order to accomplish this overall purpose a list of diagnosis and procedure codes is included as part of this billing manual (Attachment 2 and 3). Diagnosis and procedure codes are classified into three distinct categories. Never or Almost Never a Family Planning Service (Category I); Possible a Family Planning Service; (Category II) and Almost or Always a Family Planning Service (Category III). For certain procedures it will be necessary to include the appropriate diagnosis codes to determine if the service/supply is eligible for family planning.¹

Services and supplies in Column 1(Category III) are always family planning benefits and do not require a V25.XX diagnosis code to be reimbursed. Services and supplies in Column 2 (Category II) may be family planning and must have a V25.XX diagnosis code as the primary purpose of the service in order to be reimbursed. Services with an X in Column 3 are a family planning related service (Attachment 3). A visit to diagnose/treat for STI is not a family planning visit; it is a family planning related visit that occurs pursuant to a family planning visit. In this case V25 would be the secondary diagnosis code.

Billing of codes not contained in this list of billing of codes and not following diagnosis code requirements will result in nonpayment.

Required Claim Attachments

All attachments must be submitted in hardcopy via mail or fax. Providers must submit paper claims and should have the claim attachment behind the claim form.

- **Mail claim and attachments to:**
Department of Health and Human Services
Office of Medicaid Business and Policy- Family Planning
129 Pleasant Street
Concord, NH 03302
- **Fax claim and attachments to:**
(603) 271-8431

¹ The Centers for Medicare and Medicaid Services. Center for Medicaid and State Operations. Title XIX Financial Management Review Guide, #20 Family Planning Services. February 2002.

Claim Completion Requirements for Family Planning Medical Assistance Program

Family Planning providers taking part in the Family Planning Medical Assistance Program, Medicaid's expansion are required to submit outpatient claims to NH Office of Medicaid Business and Policy using the CMS1500 paper claim form.

Billing Procedures

This is a manual paper claim process. Paper claims can be mailed or faxed to the address below. Proper coding requirements and timely filing limits apply.

You can prevent delays to your anticipated payment date by following these suggestions:

1. DO use typewritten (BLOCK lettering) print when filling out claim forms; handwritten or script claims can cause delays and errors in processing.
2. DO ensure that your printers are properly aligned and that your print is dark and legible if you are using a printer to create claim forms.
3. DO use only black ink on ALL claims or adjustment that you submit
4. DO make all appropriate corrections prior to re-submitting the claim(s) or adjustment(s).
5. Do include the National Drug Code (NDC) and quantity with the applicable HCPC code when billing unclassified drug code claims.
6. DO call the NH Office of Medicaid Business and Policy at (603) 271-9415 if you have any questions.
7. Paper claims and other documents can be mailed to or faxed to :

Department of Health and Human Services
Office of Medicaid Business and Policy- Family Planning
129 Pleasant Street
Concord, NH 03302
Fax number: (603) 271-8431

The CMS claim forms must be both signed and dated on or after the last date of service on the claim. An actual signature or signature stamp is required – typed provider name or signature on file will not be adequate. Please note that anyone authorized by the provider or company is allowed to sign the form based on the company's own policy for authorized signers.

J7304	Contraceptive hormone ring	X		
J7306	Levonorgestrel implant	X		
J7307	Etonogestrel (contraceptive) implant system, including implant and supplies	X		
P3000	Screening Papanicolaou smear, cervical or vaginal, up to 3 smears, by technician under physician supervision		X	
Q0091	Screening Papanicolaou smear; obtaining, preparing and conveyance of cervical or vaginal smear to laboratory		X	
Q0111	Wet mounts, including preparations of vaginal, cervical, or skin specimens		X	
Q0112	All potassium hydroxide (KOH) preparations		X	
Q0144	Azithromycin dihydrate, oral CAPSULES/POWDER, 1 GRAM			X
S0610	Annual gynecological examination; new patient		X	
S0612	Annual gynecological examination, established patient	X		
S4989	Contraceptive intrauterine device (e.g., Progestacert IUD), including implants and supplies	X		
S4993	Contraceptive pills for birth control	X		
T1023	Screening to determine the appropriateness of consideration of an individual for participation in a specified program, project or treatment protocol, per encounter			X

	Drug Therapeutic Class Codes			
G2A	Progestational agents	X		
G8A	Contraceptives, oral	X		
G8B	Contraceptives, implantable	X		
G8C	Contraceptives, injectable	X		
G8F	Contraceptives, transdermal	X		
G9B	Contraceptives, intravaginal	X		
L5A	Keratolytics			X
Q4W	Vaginal antibiotics			X
Q5R	Topical antiparasitics			X
Q5V	Topical antivirals			X
Q6V	Eye antivirals			X
R1R	Uricosuric agents			X
W1A	Penicillins			X
W1B	Cephalosporins		X	
W1C	Tetracyclines			X
W1D	Macrolides			X
W1F	Aminoglycosides			X
W1K	Lincosamides			X
W1P	Betalactams			X
W1Q	Quinolones			X
W1Y	Cephalosporins 3rd generation			X
W2A	Absorbable sulfonamides			X
W3B	Antifungal agents			X
W3C	Antifungal agents (continued)			X
W4E	Anaerobic antiprotozoal - antibacterial agents			X
W5A	Antiviral, general			X
W7B	Viral/ tumorigenic vaccines			X
WG4	2nd gen. Anaerobic antiprotozoal - antibacterial			X
X1B	Diaphragms/ cervical cap	X		
X1C	Intra-uterine devices	X		
Z2G	Immunomodulators			X
