NOTES:

* Monthly data is compared to five year average from cases diagnosed January 1, 2002 to December 31, 2006.

1. All data in this report are based upon information provided to the New Hampshire Department of Health and Human Services under specific legislative authority. The numbers reported may represent an underestimate of the true absolute number and incidence rate of cases in the state. Any release of personal identifying information is conditioned upon such information remaining confidential. The unauthorized disclosure of any confidential medical or scientific data is a misdemeanor under New Hampshire law. The department is not responsible for any duplication or misrepresentation of surveillance data released in accordance with this guideline. All data in this report are complete as of December 18, 2007.

2. Chlamydia case counts have been scaled to fit page.

3. County data is based on residence at the time of diagnosis.

4. Data is considered provisional as this report does not account for reporting delays.
