5. Websites accepting donations of radiation machines/equipment:

- **Partners in Health** www.pih.org

Accepts donations of some medical equipment. In order to evaluate if the equipment can be used PIH requires the following information, in addition to any pictures of the unit and accessories that are available:

- Date of manufacture (equipment that is over 10 years old cannot be accepted)
- Manufacturer and model number
- Use and service history of the machine, frequency of use, when last used, and maintenance records
- Are replacement parts and any necessary consumables still available for purchase?
NOTE: only single-phase x-ray machines are accepted at the moment
- Electrical power requirements
- Current location of equipment
- Operator/maintenance manuals available

Please note that Partners In Health cannot arrange to uninstall the equipment, so the uninstall must take place before the donation can be accepted. We ask that the donor cover the costs to uninstall the equipment. Usually the company who installed the machine is able to un-install it as well. In addition, coverage for shipping costs will be reviewed on a case-by-case basis. Please fill out the form at <http://act.pih.org/inkind>.

- **Project Cure** www.projectcure.org
303-792-0729
fax: 303-792-0744
- **IMEC** www.imecamerica.org
